KEY PROJECTS EXPERIENCE

MDM (Mobionizer) | Platform: Web & Android | Role: QA & Security Testing

- Designed and executed comprehensive test plans and test cases.
- Performed API, Load, Stress, Regression, and Cross-Platform testing.
- Identified, reported & resolution critical bugs before production release.
- Conducted security testing & validation aligned with OWASP Top 10.

eSign and Digital Signature | Platform: Web & Android | Role: QA & Security Testing

- Designed and executed comprehensive test plans and test cases.
- Performed API, Load, Stress, Regression, and Cross-Platform testing.
- Identified, reported & resolution critical bugs before production release.
- Conducted security testing & validation aligned with OWASP Top 10.

eKYC | Platform: Web & Android | Role: QA & Security Testing

- Designed and executed comprehensive test plans and test cases.
- Performed API, Load, Stress, Regression, and Cross-Platform testing.
- Identified, reported & resolution critical bugs before production release.
- Conducted security testing & validation aligned with OWASP Top 10.

Online Banking Solution | Platform: Web & Android | Role: QA & Security Testing

- Designed and executed comprehensive test plans and test cases.
- Performed API, Load, Stress, Regression, and Cross-Platform testing.
- Identified, reported & resolution critical bugs before production release.
- Conducted security testing & validation aligned with OWASP Top 10.

MIST EMS | Platform: Web | Role: QA & Security Testing

- Designed and executed comprehensive test plans and test cases.
- Performed API, Load, Stress, Regression, and Cross-Platform testing.
- Identified, reported & resolution critical bugs before production release.
- Conducted security testing & validation aligned with OWASP Top 10.

EDUCATION

FTMS Global College, Cyberjaya, Malaysia in collaboration with
University of East London (UEL), UK.

B.Sc. in Software Engineering (2015-2018)

Result Grade: First Class (Marks: 78%)

Cantonment Public School & College Rangpur, Bangladesh.

Higher Secondary Certificate (2011- 2013)

TRAINING

Server & Cloud Security Management at BITM (SEIP Project Implemented by BASIS).

LANGUAGES

Bengali, English, Hindi and Malay
